Practical Peace at Lausanne

Would Boost Foreign Trade,

It Is Believed.

Industrial activity in the United States and the speak reached in the boom of 1919-1920 and the general business situation is far better than could have been expected a year ago, according to the minth bimonthly review just issued by the National Industrial Conference Board Statistics compiled indicate that industry has recovered more rapidly than has been generally supposed, while fundamental conditions are promisingly sound.

It is the last twenty-four hours in the north Pacific States, then at States, and other hourh atlantic States. In other parts of the country the weather has above normal to-night almost generally over the United States and the north Rocky Mountain region.

The outlook is for generally fair weather to-morrow and Monday in the Atlantic and East Gulf States, Tenperature considerable cloudiness in the Northern States.

Observations at United States Weather Parts of the country to week in the January number of the Various fair. The temperature was above normal over the United States and the north Rocky Mountain region.

The outlook is for generally fair weather has above normal over the United States and the north Rocky Mountain region.

The outlook is for generally fair weather has a country of the Atlantic and East Gulf States, Tenperature and Monday in the Atlantic and East Gulf States, Tenperature Rocky Mountain region.

The outlook is for generally fair weather has a fourther than the country to deal the war.

To promote industrial preparedness a plan being formulated by the War Department provides for placing from time to time small "deucational orders" with the Malantic and East Gulf States, the last twenty-four the war and southern and southern and the provider fair. The temperature was above normal to-night almost generally as of man power mobiliza

The review shows that commercia failures have decreased; that producof pig iron and steel ingots has ed, and that railroad car load ings are close to record breaking figto additional progress are designated as the car shortage, shortage of unskilled labor, and the low level of for

settle the international situation and the review states. "If a practical peace can be formulated at ible effect not only upon the foreign trade of the United States but upon

view points out that the in-

October and November, and the demand in large industries has frequently exceeded the output. A slight upward trend in prices has been noted, chiefly in wholesale prices of staple raw materials. The report continues:

"The agricultural crops of the country are larger than usual. Prices, however, are relatively low. As a group, prices of agricultural products have advanced less beyond pre-war levels than prices of any other of the principal commodity groups. This condition has caused criticism and unrest in agricultural sections of the country, where it is felt that the general prosperity of the industrial districts has not been shaed "The most serious impediment to increasing business and further industrial activity is the car shortage, which has prevented those industries that ship in carload lots from attaining as large at

distributing adequate supplies for do-mestic use, particularly of anthracite. Prices, however, are high and business is paying heavy toil for the recent dis-cord in coal mining."

## AMERICANS REPORT **MEXICAN OIL GRANT**

Los Angeles Capitalists Claim Largest Concession in History of Country.

**COVERS 11,000,000 ACRES** 

To Be Worked According to Article 27, Mexico Getting 40 Per Cent.

concession after an interview with President Obregon.

The concession, they said, was made out under the supervision of Alesio Robles, Secretary of Irdustry in the Obregon Cabinet. Mr. Wilson said the lands designated comorise virtually all Federal oil lands extending along the Gulf coast from north of Tampico to Tuxpam, close to holdings of the Standard Oil Company, the Doheny Interests and other prominent oil companies. The

cent. of the gross output goes to the Mexican Government; that the concessionaires pay 5 pesos a year a hectar for the lands they will exploit; that a deposit of 400,000 pesos be made and that 200,000 pesos be invested in works and exploration within a year.

Two years are given for exploration and the concession runs for twenty years with provision for renewal.

The exploitation will be financed entirely by Los Angeles capital, it is announced, and plans already are well advanced for the selection of centers for the active work of the undertaking.

Wilson and Moreland are manufacturers of oil drilling machinery and Bushmiller is an oil operator. Other members of the syndicate which is described as a close corporation, include Harry Lee Martin, capitalist; Austin O. Martin, banker; John O. Coverly, capitalist; Ferdinand J. Bushmiller, oil operator. and Dr. L. D. Jones, physician and capitalist.

Mr. Martin and Mr. Moreland are expected to return to Mexico City to put the plan into operation as soon as possible.

MEXICO CITY, Dec. 23.—Confirmation the Los Angeles announcement to

of the Los Angeles announcement today of an oil concession was obtained
from officials of the Department of
Commerce and Industry, Secretary
Robles being out of the city.

It was explained that the Los Angeles advices were substantially correct, although "considerably less than
11,000,000 acres is involved."

One stipulation of the agreement is
that the promoters must drill at least
three wells the first year and a similar number in succeeding years.

## PANAMA CALLS FOR FUNDS

Agent Instructed Not to Renew

Mortgages Here. PANAMA CITY, Dec. 23.—E. A. Morales, Secretary of Finance, has instructed the Panaman fiscal agent in New York not to renew mortgages expiring December 31 and not to make further investments. The National Assembly is insiding that the funds be brought to Panama.

Money received by Panama from the United States for the Panama canal con-cession was invested in New York city real estate.
